ENG 111-0007 (G)

How & When our Course Meets

Asynchronous Online: Fully online course without scheduled meetings; College curriculum or continuing education course in which 100% of the instruction is delivered online. Students who do not complete the Course Entry Quiz by the 10% mark of class noted on the course calendar will be removed from class and marked as "Never Attended."

Schedule Adjustment and Withdrawals

Each semester, you have a window of opportunity to make changes to your course schedule or withdraw. The timing of when you withdraw impacts how much, if any, of your tuition may be refunded and may also impact your financial aid.

To view the withdrawal deadlines, please visit [Wake Tech's Calendar](https://www.waketech.edu/student-services/registration-student-records) (<https://www.waketech.edu/student-services/registration-student-records>).

To view the comprehensive withdrawal policy, visit [Withdrawal Policy](https://www.waketech.edu/catalog/academic-information) (<https://www.waketech.edu/catalog/academic-information>).

To contact financial aid, visit [Financial Aid](https://www.waketech.edu/%EF%AC%81nancial-aid) (<https://www.waketech.edu/%EF%AC%81nancial-aid>).

What This Course Is About

This course is designed to develop the ability to produce clear writing in a variety of genres and formats using a recursive process. Emphasis includes inquiry, analysis, effective use of rhetorical strategies, thesis development, audience awareness, and revision. Upon completion, students should be able to produce unified, coherent, well-developed essays using standard written English. This course is computer-assisted; for assistance, contact [Wake Tech Help Desk](https://www.waketech.edu/help-center/its/topics) (opens in new window) at <<https://www.waketech.edu/help-center/its/topics>>.

Wake Tech is committed to helping you develop life skills which are highly sought after by employers and four-year universities, including critical thinking/ problem solving, oral and written communication, and/ or quantitative literacy.

Upon completion of this course, you will be able to:

1. Identify an appropriate topic about which to write or devise an appropriate approach to an assigned topic.
2. Demonstrate writing as a recursive process.
3. Demonstrate writing and inquiry in context using different rhetorical strategies to reflect, analyze, explain, and persuade in a variety of genres and formats.
4. Students will reflect upon and explain their writing strategies.
5. Compose texts incorporating rhetorically effective and conventional use of language.
6. Compose standard academic essays that develop approved topics, include substantive thesis statements, and consist of introductory, body, and concluding paragraphs.
7. Use standard written English that includes a minimum of spelling errors, sentence fragments, comma splices, fused sentences, and agreement errors.
8. Locate, evaluate, and incorporate relevant sources with proper documentation.
9. Demonstrate the critical use and examination of printed, digital, and visual materials.
10. Collaborate actively in a writing community.

Requisites

Prerequisite (must be completed before taking the course):

Take One: DRE-097, ENG-002, ENG 025, or BSP-4002 - Must be completed prior to taking this course.

Co-Requisite (must be completed before taking this course OR while taking this course): Take ENG-045- Must be taken either prior to or at the same time as this course.

Students who do not meet course prerequisites will not be allowed to remain in the class. Students should note that receiving a grade of F in a prerequisite course does not fulfill the prerequisite.

Important Information for Students Taking ENG 111 with ENG 045

- Students taking this combination of courses cannot withdraw from one without being withdrawn from the other. This is true even if you elected to take ENG 045 and it was not originally required of you. For example, John Doe enrolls in both ENG 045 and ENG 111. If he withdraws from ENG 045, he is automatically withdrawn from ENG 111 (and vice versa).
- Earning a passing grade in one class does not guarantee a passing grade in the other. Please understand that assignments completed in ENG 045 and ENG 111, though related, are graded independently and according to different competencies.
- Wake Tech offers a wide variety of support services. While your first stop should always be with your instructor, students in ENG 045 and ENG 111 may visit the department's English TLC and the Writing TLC. To ensure grades earned are reflective of your writing abilities, neither your instructors (045/111) nor the tutors at the centers will simply proofread and edit your work for you.

What You'll Need: Textbook & Materials

Eagle Advantage is Wake Tech's textbook program for students in degree programs, excluding Career & College Promise (CCP) and Cooperative Innovative High School (Early College) students. The program ensures all required printed and digital textbooks are bundled and ready for pickup or delivery on or before the first day of class - saving you time and money and ensuring you're ready to learn on Day One.

If you are opted-in to Eagle Advantage, visit the 'Course Materials-BibliU' link in Blackboard for more information about the textbook details for your course. You can also find out more information by visiting [FAQs and Troubleshooting – BibliU \(https://support.bibliu.com/hc/en-us/sections/360004011038--FAQs-and-Troubleshootin\)](https://support.bibliu.com/hc/en-us/sections/360004011038--FAQs-and-Troubleshootin).

If you opted-out of Eagle Advantage, you are responsible for purchasing any of the required texts/materials for this course. For more information about Eagle Advantage, contact our [Bookstore \(https://www.waketechcampusstore.com/SelectTermDept\)](https://www.waketechcampusstore.com/SelectTermDept).

✓ How Your Work will be Evaluated: Grading Information

Students often have questions regarding evaluation of work. Instructors hold regular office hours, either on campus or online, to assist students with questions about the course or evaluation of submitted work. Students should always work first with course instructors to find answers to questions or solve issues with evaluation prior to contacting the Department Head or Associate Department Head (if applicable). After every effort to resolve issues in this manner, students may contact the Dean of the Division of Liberal Arts.

*Note: Journal Entries (short prewriting activities) will be given this semester. These grades are factored into your peer review (self & peer) percentage.

Criteria

Assignments, Exams, and Activities

Evaluation Type	Weight
Project 1 (Out-of-class Essay)	15%
Project 2 (Out-of-class Essay)	20%
Project 3 (Out-of-class Essay)	25%
Quizzes	10%
Peer Review (Self & Peer)	5%
Discussion Boards	5%
Midterm	5%
Final Reflection	15%

Breakdown

Course Requirements

1. Students will write and will be graded on 3 projects/essays (a minimum of 3500 words). Each essay should address a specific purpose (examples include but are not limited to expressing an opinion, explaining a process, solving a problem, informing, evaluating, analyzing, and supporting an assertion with evidence). Students will adopt appropriate modes of development to achieve their purpose (examples include but are not limited to comparison/contrast to evaluate, exemplification to support an assertion, etc.). They will write consistently for an appropriate audience, considering that audience's needs and expectations.
2. Students will write at least two essays that use direct textual support. Facts and ideas from sources must be incorporated into the essay in the form of accurate quotations, paraphrases, and summaries that are documented using MLA style.
3. Students will take part in classroom activities (or for online classes: discussion boards, blogs, journals, etc.) and complete homework assignments that develop their awareness of their own writing errors and motivate them to correct and avoid these errors, relying on Rules for Writers as a guide.
4. Students will demonstrate their understanding of MLA documentation guidelines through the use of in-text citations and properly formatted Works Cited pages.

Grading Scale

This course uses a 10-point grading scale.

- A: 90% and up
- B: 80% - 89%
- C: 70% - 79%
- D: 60% - 69%
- F: < 60%

Grades and Feedback

Students often have questions regarding evaluation of work. Instructors hold regular office hours, either on campus or online, to assist students with questions about the course or evaluation of submitted work. Students should always work first with course instructors to find answers to questions or solve issues with evaluation prior to contacting the Department Head or Associate Department Head (if applicable). After every effort to resolve issues in this manner, students may contact the Dean of the Division of Liberal Arts.

Late Work Policy for This Course

Late quizzes, discussion posts, journal entries, midterms, final exams, or peer review responses will not be collected. These items must be submitted on time to receive **grade credit** *and* **attendance credit**.

However, you do have an option of submitting a major essay late by one class date with a 10-point deduction. For example, if you earn an 89 on an assignment, due to its tardiness, it will be lowered to a 79. For an online class, a class date is the next due date; remember our due dates are Wednesdays and Sundays. Plan accordingly and feel free to submit your work well before the deadline. If extenuating circumstances should occur, always reach out to me via email before any due dates.

✳ How I Will Help You Succeed: Instructor Policies & Procedures

How to Succeed in This Class

Students who come to each class prepared to learn, participate in activities, and complete assignments, and have good study habits will succeed in this course. Should you have any concerns about your success in this course, please contact me as soon as possible.

Communication Expectations

When emailing, please be sure to include your course and section number. You can also communicate with me in-person during office/student hours. Please use your provided my.waketech.edu e-mail account for all school-related correspondence. Due to security concerns, any emails from a personal account may not be delivered successfully.

Response Times: During the week, I will reply to emails within 24 hours. If I do not respond within 24 hours, please contact me again to follow up. Please be mindful that I do not respond to emails after 5:00 p.m. or during the weekends.

Attendance

Attendance in an online asynchronous class is demonstrated by submitting required attendance-designated assignment(s) in Blackboard. Our due dates will be Wednesday and Sunday by 11:55 p.m.

The Wake Tech Community College Attendance Policy states:

Wake Tech expects students to attend at least 90% of all scheduled class meetings. If a student's consecutive absences from class exceed 10% of the total instructional time, the student has not communicated with the instructor and the student is currently not passing the class, then the faculty member should withdraw the student from the class.

Consistent with a culture of care, faculty have the discretion to work with students who express a need for reasonable attendance accommodation. Similarly, students must take personal responsibility for their attendance and use discretion when making schedule choices to meet the demands of work, family and other responsibilities.

Technical Difficulties

You will need access to reliable technology to be successful in this course. Consistent technology issues are not valid excuses for not submitting your work by the deadline. If you have issues submitting your work due to a technical issue, please do the following:

1. Refresh the screen or switch browsers; Google Chrome seems to work best for online courses
2. Take a screenshot of the error for documentation and email me immediately
3. Contact ITS if you need additional technical support. Their information can be found in the Student Support left panel of the course

When verifying the time for any Blackboard-based submission, the English Department recognizes the time/date stamp that is verified by Wake Tech's LMS Administrator as the official and final record.

Page Requirement Policy

All essays must follow the page or word count requirement in order to be eligible to earn full credit. The essay length will always be listed on the essay assignment. Points will be deducted from essays that fail to meet the page requirement.

Microsoft Word Software

As a part of your tuition, you have access to free Microsoft Word software. Please note that all documents for this course must use Microsoft Word software. Save files under doc, docx, or rtf formats. Also sharing links like Google Docs links will not be accepted.

Service Learning

What is Service Learning?

Service learning is the integration of community engagement projects with student learning to provide real-world experiences that foster cultural and classroom understanding, critical thinking and civic responsibility.

Service learning meets the needs of adult learners by offering authentic, student-directed learning experiences as a form of experiential education that enhances the curriculum by extending learning beyond the classroom and allowing students to apply what they've learned.

A minimum of **ten hours** must be devoted to your service-learning project in order to earn credit and earn the official notation in your records. You have the entire semester to complete it.

Service learning will be noted in your records, and you can use it as a competitive advantage if you're hoping to transfer schools, enter the workforce, or simply continue work in the community. Plus, it just feels good to give back!

For my course, you have several options:

1. Create study guide materials for the course. This can be a digital or hard copy format through popular platforms like Quizlet, YouTube, PowerPoints, Word documents, Kahoots, and so forth. I often use many of my former service-learning students' study guides, so these resources help! You can also help me craft lessons with Padlet software.
2. Complete community service. Wake Tech has a list of community partnerships located on the website. Perhaps you're already doing this and want to apply what you're doing to our course!

Review Your Grade

You may access your grade throughout the semester in the gradebook platform. If you have questions or concerns about a graded essay, you must wait 24 hours after receiving my comments and your results before approaching me to discuss the assignment, so you can fully consider the feedback given.

Extra credit or revisions of major work will not be given unless it's offered for the entire class.

Peer Review Participation

Because this is a writing class and because a writer's work benefits from multiple readers, you will spend time in discussion forums reviewing your classmates' work. **You will submit a preliminary draft** (80% of the assignment's required length). On the days your rough drafts are due, it will be your responsibility to give thoughtful, constructive criticism to your peers by answering the guided peer review questions thoroughly.

Note: I do not make comments on peer reviewed drafts. Should you want me to review your work, you can make arrangements with me via email. I also recommend that you submit your work to the Tutoring and Learning Centers and English Tutoring Learning Center for additional feedback but plan well ahead of the deadline so that you have time to revise. Information about the Tutoring Centers can be found in our Getting Started folder.

Netiquette

For this online class, using proper netiquette—or online manners—is important as you express and hear various views. The failure to use a respectful, appropriate tone in your online discourse—in this context in the discussion, peer review, and blog forums—can impact the assessment. Please refrain from threats, ad hominem attacks, and disrespectful tactics. Any posts deemed inappropriate by the course instructor will be deleted, and no credit will be awarded for the assignment, and a behavioral report may be processed which may involve removal from the course. For additional information, review the rubric outlined in each forum as well as the netiquette video in your week one's lecture section.

How the Department Will Help You Succeed: Department Policies & Procedures

English Department Policy Regarding Student Work

- The English Department requires that all final drafts of out-of-class essays be typed (computer-generated). A rough draft of all out-of-class essays must also be turned in (or for online classes, submitted in a file format that is compatible with Microsoft Word).
- Instructors may also require that out-of-class essays be submitted as electronic files. Essays may be checked electronically for plagiarism.
- Instructors may require that students submit copies of all sources used in researched essays.
- All papers will be retained by the instructor for one semester.
- All grades are based on the ten-point scale, according to department policy.

Academic Integrity Statement

Each student at Wake Technical Community College has the responsibility of ensuring the integrity of their own work. [Wake Tech's academic integrity policy](#) (opens in new window)

URL: <https://www.waketech.edu/catalog/student-code-conduct-rights-and-responsibilities> specifically prohibits plagiarism, self-plagiarism, and cheating of any kind. In other words, any work you submit in this class must be your own. Examples include, but are not limited to, thesis statements, outlines, bibliographies, essay drafts, blog or discussion board posts, wiki contributions, reflective writings, presentations, and more. In addition, information from outside sources included in your work must be properly documented using the appropriate editorial style.

Using a product or technology (ChatGPT, Dall-E, etc.) in the course to create or aggregate synthetic content for the course, such as any course writing, brainstorming, generating a draft, a works cited source bank, answering discussion groups, collaboration, group work, or other attendance activities, is considered

academic misconduct similar to plagiarism or violations of the student code of conduct. Unless expressly permitted by your instructor, suspected cases of AI-generated submissions may be reported to the Student Code of Conduct office as a violation of the college's Academic Integrity Policy.

Your instructor will inform you of the requirements for individual assignments. To avoid violating this policy, please seek guidance from your instructor if you have questions. Please also refrain from seeking help from sources of collaboration that have not been sanctioned by your instructor. Violation(s) of this policy range from a loss of points on the assignment to a zero on the assignment to an F in the course as well as sanctions from the institution that may be recorded on your permanent college record.

Instructors reserve the right to require a meeting with a student before determining the final grade for an assignment when inappropriate AI use is suspected. This required meeting may either be in person or on Teams (cameras and recording on). If students have any questions about AI use, they should ask their instructor.

Rounding Policy

Final course grades (weighted total) will be determined by the following method:

- When the decimal grade point is greater than or equal to "0.5", the grade is to be rounded up to the nearest whole number. For example, an "89.56" would be rounded to a "90".
- When the decimal grade point is less than "0.5", the grade is to be rounded down to the nearest whole number. For example, a "69.49" would be rounded to a "69".
